Summary

Software engineer with Certificate in Software Engineering from Digital Crafts. Before embarking on my programming education, I worked at UPS as a Delivery Driver, being self motivated and learning time management and the importance of staying physically fit. I also worked as a subcontractor through OnForce where I coordinated with a team to complete workload under time constraints.

Software Development Skills

HTML, CSS, Python, JavaScript, Node.js, Express, React, Redux, PostgresSQL, Bootstrap, Github, Debugging

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA
Software engineering training program covering full-stack development, JavaScript, Python, frameworks like React/Redux and server-side technologies including PostgresSQL, Node.js and Express.
Attended GGC Fall 2012

Software Development Portfolio

Capstone Project | hostsite.com | link
- Member of a 3-person development team building RPG
- User controls a hero with different stats, hp and attack. Your hero also has level and gains xp as user kills monsters. User encounters a turn based fighting system when you are attacked by monsters
- Capstone project using CSS, JavaScript, React, Redux and PostgresSQL

Project Elon | hostsite.com | https://github.com/Samson300/project-elon
- Member of a 3-person development team building a website for science enthusiasts
- After signing in, the user is routed to a dashboard page that pull data from a NASA API and displays a science image with facts about the image. Each day has a new image with facts
- Backend project using HTML, CSS, PostgresSQL and Node.js

Monster Chase | hostsite.com | https://github.com/Samson300/monster-chase
- Solo project building a game
- A game where you are a Hero and you have to catch the Zombie Monster without running into the Goblins
- Built with Python, py-game

Professional Work Experience

OnForce | Tech Service |Atlanta, GA   January 2017 - December 2018
- Offered information technology skills to clients through subcontracting web service
- Completed computer relocation services
- Coordinated with a team to finish workload under time constraints

ConsolidatedElectronics.inc | Atlanta, GA
- Assembled and delivered commercial workout equipment   April 2018 - September 2018
- Regularly performed maintenance and safety checks on standing equipment
- Used and responsible for power tools throughout work shift

UPS | Delivery Driver | Atlanta, GA   January 2013 - December 2016
- Worked in the warehouse loading/organizing the delivery trucks for first 7 months
- Moved up to Delivery Driver running multiple routes in different locations
- Learned a lot about time management as I was put in areas I've never been before and had to be at different locations at certain times. Also learned the importance of staying physically fit and healthy.
